1 Week 1

1.1 Value & Color 1/18/24

- Value
 - Value refers to the darkness/lightness of something and can be used to give depth to something
 - the value pattern describes the organization of light & dark within a work of art
 - Relative Value is lightness or darkness of color and is one of the intrinsic properties of color
 - the value of every color can be altered through the addition of white or black to make it lighter or darker
 -
